PROTECTIVE WALL CASES

Protection For Vital Equipment That Must Be Stored In Hostile Environments

FIRE EXTINGUISHER WALL CASES

SHELTER FIRE EXTINGUISHERS FROM HOSTILE CONDITIONS WITH ENCON'S FIRE EXTINGUISHER WALL CASES

Provide protection for fire extinguishers to keep them in ready condition by choosing a wall case that resists the corrosive conditions found in most industrial settings. Encon wall cases withstand the harshest of conditions protecting your fire extinguisher so that it will be ready if an emergency arises.

Features and Benefits Include:

- Chemical resistant ABS plastic thermoformed construction
- Corrosion resistant external components
- Rugged oversized hinges
- Bulb rubber gasket provides virtual air tight seal
- Models with stay clear acrylic viewing window(s)
- Internal dual latch closure with one quarter turn handle
- High visibility white graphics
- UV stabilized brilliant red color
- Suitable for 6 to 30 lb. extinguishers-stored pressure or cartridge operated
- Reinforced case bottom

Compatible with virtually all Fire Extinguishers.

Fire blankets which are meant to provide temporary relief to accident victims can be kept dry and free of debris when stored in an Encon® wall case.

DUAL SCBA WALL CASE

ENCON'S DUAL SCBA WALL CASE STORES TWO SCBA IN USER READY POSITION

Encon's dual wall case provides protection for two self-contained breathing apparatus in locations with corrosive atmospheres. Storage in the wall case ensures the equipment will be in optimal condition for emergency situations.

FEATURES AND BENEFITS INCLUDE:

- Holds 2 SCBA or 1 SCBA and 1 spare tank
- Accommodates new wider harness ergonomic models
- ABS polymer case resists weathering and corrosion
- Clear polycarbonate windows
- Heavy duty custom formed stainless steel continuous hinge
- All stainless external hardware
- Industrial Neoprene® bulb seal between door & case provides excellent seal

EQUIPMENT STORAGE WALL CASES

ENCON'S EQUIPMENT STORAGE WALL CASE PROVIDES A SUPERIOR SEAL TO PROTECT VITAL EQUIPMENT IN A VARIETY OF HOSTILE ATMOSPHERES

Protecting the contents from potentially damaging and corrosive atmospheres is the prime objective of any protective wall case. To ensure safe operating capability of your equipment use Encon's equipment storage wall case.

Features and Benefits Include:

- Tamper seal security feature—door cannot be opened without breaking the seal
- Molded plastic construction made of a chemical resistant ABS structural foam
- Three well spaced interlocking hinges provide excellent support for the door and reduce door deflection when in the open position
- Bulb rubber gasket provides virtual air tight seal
- Optional large viewing window (clear polycarbonate) positioned on lower portion of door to provide for a SCBA Air Gauge Viewer (AGV)
- Internal dual latch closure allows for two points of contact to help ensure door seal
- Quarter turn handle provides for quick and easy access to case contents
- ABS notched storage shelf for mask/hose attachment
- Heating capability for cold environments (available on specifically ordered models)
- SCBA storage case models offer choice of a fully adjustable steel bracket or ballistic nylon and Velcro® strap retaining systems
- High visibility black graphics on a choice of listed colors
- Multiple equipment storage options with variety of shelving options

Compatible with virtually every available SCBA equipment.

UTILITY RESPIRATORY WALL CASES

ENCON'S UTILITY RESPIRATORY WALL CASE PROVIDES MUCH NEEDED FLEXIBILITY

The Encon utility wall case offers the versatility to accommodate half-mask and full-facepiece air purified respirators, powered air purifying respirators, airline air respirators as well as 5, 10 and 15 minute egress respirators. The utility wall case guards respirators against airborne gases, mists, vapors and particulates.

Features and Benefits Include:

- Chemical resistant ABS plastic thermoformed construction
- Corrosion resistant external components
- Rugged oversized low-friction hinges
- Bulb rubber gasket provides virtual air tight seal
- Stay clear acrylic window(s) allow viewing of contents with door closed
- Internal dual latch closure allows for two points of contact to help ensure door seal.
- Quarter turn handle provides for quick and easy access to case contents
- High visibility black graphics
- UV inhibitors to assure long lasting color
- Self-adhesive time/identification labels included

Suitable for storing various half-mask and/or full face-piece air purified, PAPR, airline escape respirator products.

ESCBA WALL CASES

DEPEND ON ENCON'S ESCBA WALL CASE TO PROTECT ESCAPE RESPIRATORS

To function properly when the need arises, escape respirators must be protected from moisture, ultraviolet light, corrosive atmospheres and airborne particulates. Encon ESCBA wall cases resist weathering, moisture and corrosion to ensure ESCBA equipment stays in ready-to-use condition.

FEATURES INCLUDE:

- Chemical resistant ABS plastic thermoformed construction
- Corrosion resistant external components
- Rugged oversized low friction hinges
- Bulb rubber gasket provides virtual air tight seal
- Stay clear acrylic window(s)
- Available in single or dual unit models
- Internal dual latch closure allows for two points of contact to help ensure door seal.
- Quarter turn handle provides for quick and easy access to case contents
- High visibility black graphics
- UV inhibitors to assure long lasting color

Compatible with virtually every available ESCBA equipment.

CUSTOMIZED WALL CASES

DEVELOP SPECIAL STORAGE CASES FOR YOUR APPLICATION

The Encon® wall case ordering grid (pages 4-5) lets you select a specific wall case with the features needed to meet your special application. Silkscreen graphics allow for rapid identification of the contents specific to the equipment stored. Create a cost effective storage solution with customized wall cases from Encon®.

FEATURES INCLUDE:

- Chemical resistant ABS plastic case and door**
- Corrosion resistant external components
- Rugged oversized hinges (molded in on case #WC) (A)
- Bulb rubber gasket (B)
- Acrylic viewing window (C)
 - Clear acrylic on vacuum formed models (except Dual SCBA)
 - Clear polycarbonate on ABS structural foam molded models
- Internal latch closure (B & D)

OPTIONS AVAILABLE:

- Five case sizes to choose from
- Shelving configurations and bracket options
- With or without window option (#41, 43 & WC models only)
- Locking capability as option
- Door color options as shown below
- Custom silkscreens available
- * Vacuum formed: Cases 41, 42, 43 & 44
- ** ABS structural foam molded: Case WC
